Michigan State University

The HSHSP provides its participants with a unique opportunity to “live and breathe” research in a university environment. Its goals are not only to educate individuals about the research process but to provide the right kind of social context for such knowledge and expertise to flourish. <http://education.msu.edu/hshsp/>

Furman University: Top Mock Program

The HSHSP provides its participants with a unique opportunity to “live and breathe” research in a university environment. Its goals are not only to educate individuals about the research process but to provide the right kind of social context for such knowledge and expertise to flourish.

Northwestern University: Theater, Arts, Media, Video, Debate

<http://nhsi.northwestern.edu/>

IN OUR STATE:

Wright State University Pre-College Programs Grades 10-12: Computer Technology Institute, Forensic Science Institute, Leadership Institute, Social Psychology Institute, Journalism Institute. The above are RESIDENTIAL CAMPS offered throughout the summer. <http://www.wright.edu/student-affairs/pre-college-programs/residential-institutes>

The 2018 Martin W. Essex School for the Gifted and Talented™ at Otterbein University offers rising high school juniors and seniors the chance to explore the arts, sciences and humanities through a set of seminars, hands-on workshops, and field trips. This residential school encourages social interaction and peer discussion so that students are challenged intellectually and artistically and develop a better understanding of their abilities and talents in their lives and in society. <http://www.otterbein.edu/public/About/Community/summercamps/essex-camp.aspx>

Ohio Northern:

This summer, Ohio Northern University will host its Summer Academic and Honors Institute for gifted high school students. Fifteen challenging courses including Pharmacy which is limited to rising seniors. http://www.onu.edu/academics/summer_academic_and_honors_institute

Baldwin Wallace:

Each summer, Baldwin Wallace offers a variety of programs for grade-school students through adults. Camps and programs with BW faculty and staff as well as select camp providers encompass the areas of academics, athletics and music. <https://www.bw.edu/community/summer-camps/>

Case Western Reserve: Pre- college Scholars Program. Many choices of enrichment classes. <https://case.edu/ugstudies/pre-college-scholars-program/>

Champs: Careers in Health and Medical Professions

The program is academically enriching and introduces high school students to a wide variety of high wage, high skills careers in health and medicine. <http://www.csuohio.edu/cehs/te/champs-careers-in-health-and-medical-professions>

Cleveland Clinic:

In collaboration with Youth Opportunities Unlimited (Y.O.U.), the Health Horizons Internship Program expands the knowledge of science and medicine for "at promise" rising high school juniors and seniors who live and attend school in Northeast Ohio.

<http://civiceducation.clevelandclinic.org/Clinic-Based-Programs/Clinic-Based-Programs/Health-Horizons.aspx>

All Cleveland Clinic Intern Programs - <http://civiceducation.clevelandclinic.org/Clinic-Based-Programs/Clinic-Based-Programs.aspx>

Cleveland Institute of Art:

Sharpen your artistic skills. Experiment with new media. Build your portfolio. And focus on your art at Cleveland Institute of Art's Pre-College Program. During this two- or four-week residential program, you'll use the tools and processes available only to our students and experience the life of an art student at a premier college of art and design. <http://www.cia.edu/continuing-education/classes>

Cleveland Institute of Music: Instrumental and vocal programs for intermediate and advanced students. <https://www.cim.edu/prep#private-lessons-classes-ensembles>

Bowling Green: A variety of summer pre college programs – robotics, media production, exploring health careers and more... <https://www.bgsu.edu/pre-college-programs/pre-college-certified-summer-academic-programs-and-summer-camps/academic-summer-programs.html>

Ohio State University Tech Camps: Kids and teens discover coding, game development, robotics, and design in an inspiring, collegiate setting. <https://www.idtech.com/locations/ohio-summer-camps/ohio-state-university#!>

Also: **The Ross Mathematics Program:** an intensive summer experience designed to encourage motivated pre-college students to explore mathematics.

<http://u.osu.edu/rossmath/>

Ohio State Super Computer Program: Study supercomputers for practical applications such as solving complex science and engineering problems, conducting network forensics to catch hackers, studying the spread of the bird flu and designing computer games. <https://stemoutreach.osu.edu/events/ohio-supercomputer-center-summer-institute-3>

Ohio University: Ohio University offers three summer programs for high school students targeting a variety of interests. The programs are OHIO's Summer Honors Academy; The Pills, Potions and Poisons Program, jointly sponsored by OHIO's Department of Chemistry and the Ohio State University College of Pharmacy; and the E.W. Scripps School of Journalism summer workshop.

<https://www.ohio.edu/compass/stories/10-11/4/high-school-summer-programs.cfm>

Miami University: The Summer Scholars Program provides a rich, early college experience for academically talented rising high school juniors and seniors from across the globe. Students will join an engaged community of learners for an intense, two-week program. <http://miamioh.edu/admission/high-school/summer-scholars/index.html>

University of Cincinnati: Offers a wide variety of summer programs!

<https://www.uc.edu/summer/High-School-Students.html>

University of Dayton: Summer Honors Engineering Camp: Experience Engineering. Design and build robots. https://www.udayton.edu/engineering/k-12-programs/summer_honors_engineering_camp/index.php

Also: Women in Engineering Summer Camp: https://www.udayton.edu/engineering/k-12-programs/women_in_engineering_summer_camp/index.php

Kelly's Island- Stone Lab – Aquatic scientific summer options -

<https://ohioseagrant.osu.edu/education/field-trips>

Ohio Dominican University:

A three-day global education simulation experience that allows students in grades 6-12 to learn about the complete operations of the United Nations and its role as the world's largest international peacekeeping and humanitarian organization.

Also - Business Week 9th, 10th & 11th grade - An exciting one week summer program that includes a "real world" business simulation, very much like "The Apprentice!" Each student is part of a company that develops an imaginary business venture and competes for awards during the Emerging Entrepreneur Competition. This is for students who are motivated, looking for a challenge, and interested in meeting high school kids from across the state. (Also offered at Youngstown State.)

<http://www.ohiobusinessweek.org/>

Case Western Reserve:

Science & Medicine Program Students in grades 10-12 Biochemistry, Chemistry, Advanced Creative Writing, Engineering Concepts, Genetics and Biotechnology, Intro to Computer Game Design, Physics, Pre-calculus, AP Psychology, Robotics.

<http://summer.case.edu/high-school-students/>

Kenyon College:

Young Writers Workshop: An excellent program for talented writers.

<http://www.kenyonreview.org/workshops/young-writers/>

Hiram College:

Emerging Writers Program -

<http://www.hiram.edu/academics/summerathiram/emerging-writers>

University Hospital – Summer Youth Volunteer Program

The NASA Glenn Research Center Research Internships

The Lewis' Educational and Research Collaborative Internship Project at the NASA Glenn Research Center in Cleveland, Ohio consists of internships for High School Students, College Students, and Secondary School Teachers.

Student Application Season: November - March

The NASA Glenn Research Center Research Internships

The Glenn High School Internship Project (GHIP) provides paid summer internship opportunities, 8 weeks in duration, to students interested in careers in science, technology, engineering, mathematics (STEM) and professional administration at the NASA Glenn Research Center (GRC). This educational project offers opportunities for 10th and 11th grade students who will be juniors and seniors in the upcoming school year and is sponsored by the NASA GRC Office of Education (OE).
